DETAILED ACTION / ALLOWANCE

This action is in response to 9/2/05 amendment, which has been scanned into the electronic file of record.

Allowable Subject Matter

Claims 1-34 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to teach or fairly suggest, in the context of the various other limitations upon which the claims depend, throwing, via a flexible member, a card into a receptacle of an ATM machine. This limitation had been previously objected to, and has now been included in each independent claim.

The nearest prior art generally shows that captured cards are tossed into a receptacle generally by being dropped, or pushed by rollers which come to an end at an entry to the receptacle. What is lacking is a resilient member that serves to actually throw the card. This is shown in figures 19 and 20 of the instant application, where the resilient member and the throwing action can clearly be seen.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
